EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms Ann Muetting on 07-25-05.

The application has been amended as follows:

See the attached Applicant's supplemental amendment.

2. The following is an examiner's statement of reasons for allowance:

In light of Applicant's arguments on pages 13-16 (particularly on page 13 full paragraph 3), where Applicant asserted that "*While Chang et al. disclose a tacky binder, the mere property of tack does not necessarily mean that the binder includes a polymer with viscoelastic properties suitable to a PSA ...*", and in view that there is no reasonable suggestion in the art to incorporate "*at least one copolymerized poly(alkylene oxide) (meth)acrylic ester monomer*" to a fiber binder taught by Chang et al, the recited claims are allowable.

Note: in light of the amendment to all independent withdrawn claims, all withdrawn claims are rejoined and deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
